1. Support a Child Orphaned by AIDS
   a. How long does this support last?
      This is a thematic gift. It is **NOT** sponsorship of a specific child. The entire amount donated goes directly to a specific UNICEF program that provides support for child orphaned by AIDS. It doesn't have a time period associated with it – children won't be "removed" from the program.

   b. What happens after the time is done. How does the child continue with treatment after. Please see answer above.

2. Send a Child to School
   a. How long does this last? Is it a year, a school term, etc.?
      This is a thematic gift. It is **NOT** sponsorship of a specific child. The entire amount donated goes directly to a specific UNICEF program that sends children to school. It doesn't have a time period associated with it – children won't be "removed" from the program.

3. Learning Bundle
   a. School supply set (what is included in this)
      The school supply set is actually a partial buy-in for an Early Childhood Development Kit (this explanation is for internal use only). To the caller, I would say that it includes learning and art materials like pencils, exercise books, paint, scissors, erasers, clay, etc

4. Family Sanitation Kit
   a. Hong long will this last (on average)?
      This is very dependent on the number of people using it, however supply division ballparks it at about a month. And parts of it, like the collapsible water container & bucket, can be used indefinitely depending on the care of the item.

5. Family Survival Food Pack
   a. How long will this sustain the average family?
      I wouldn't ballpark it for anyone because in reality, the products used in the bundle probably wouldn't ALL be given to the same family, and even if they were, each item would sustain for a different period of time. We bundled together food items that would address the needs of several different ages/stages of malnutrition of children. If you get this question, I would tell the caller that the length this will sustain a family depends on the size and the needs of the family.

6. First Aid Kit
   a. What does the kit contain?
      See the list below.

      First aid kit
      Kit contents/Description:

7. Winter Survival Pack
   a. Why is this winter? Is it only used in cold climates? Is there a similar product for warm areas?
      This is a pack that originated with the US Fund – they developed it and called it the winter survival pack, which is why we gave it that name. I wouldn't tell that to the caller, though. It is not just for use in cold climates – winter in Africa is warm (in some cases warmest during the winter).

8. Emergency Health Pack
   a. What are anti-infection tablets?
      Anti-infection tablets are deworming pills.

b. How many babies could this help deliver?
It stocks a maternity ward, so it will help deliver approximately 50 babies.

10. Tents
    a. Are the tents only used for schools or can it be used for temporary housing
    Tents are used for many things: schools, temporary housing, use for medical teams, etc.
